The modern game makes it more than ever necessary for most players to rush to the net at once when they are serving in order to assume the attacking position before the other man gets that advantage. The American twist service also has a tendency to draw the server forward as he had been server for he h server forward as he hits the ball, and be often loses his balance in making on the following day. There was an abundance of good tennis, in spite of the fact that most of the players have not got the kinks out of their batting arms yet, and a couple of upsets. One of the unexpected results was the defeat of Walter Merrill Hall of the Bronx title year before last, by Frederick C. Baggs. There were a great many who expected Hall to regain the title, which he dropped to Voshell last year, but Baggs put him out of the tracket and the racket and concentrate the accomplished in connection with last year, but Baggs put him out of the count.
